

Staff Networks

We have three staff networks for Black and Minority Ethnic (BME) staff, Disabled staff and Lesbian, Gay and Bisexual (LGB) staff.

The Networks are confidential, self-governing groups, which provide support and help to raise awareness of issues affecting each of these staff groups.

The Networks raise the views of members through the Equality Implementation Group. Involvement in the groups helps to ensure that our employment practices and services meet the needs of the diverse communities we serve.

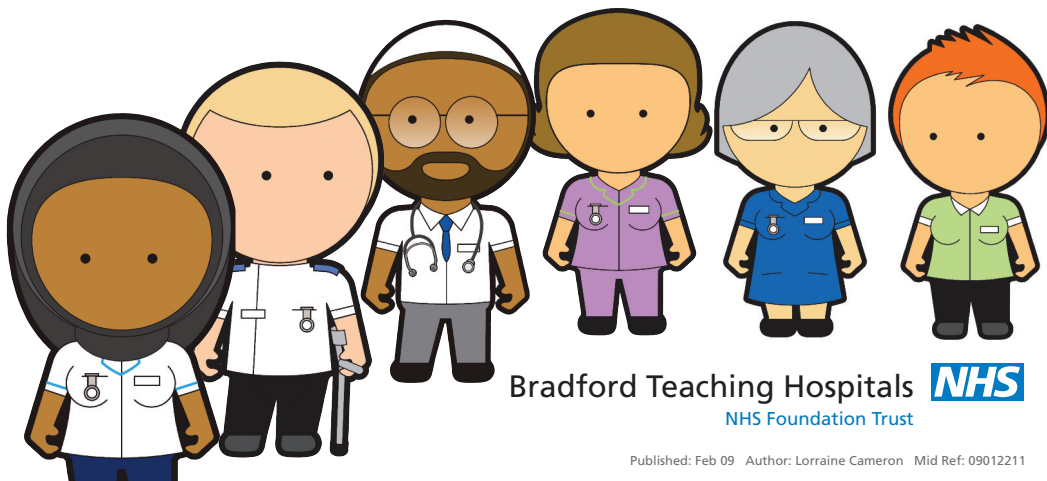

If you would like more information or want to be involved, please contact:
