Key Options, Issues and Risks		
In November 2017 the Board of Directors received and approved the Trust's Risk Appetite Statement for 2017-20. That statement proposed that the Board reaffirms its risk appetite on an annual basis. This report contains the Trust's 2018/19 Risk Appetite Statement agreed with the Board of Directors in November 2018 (Appendix 1). The Board of Directors receives the Board Assurance Framework (BAF) at each meeting (Appendix 2). Prior to receipt at Board the BAF is reviewed and challenged through the relevant Board Committees and the Integrated Governance and Risk Committee. Also appended to this report is the strategic risk register (Appendix 3).		
Analysis		
The Board has overall responsibility for ensuring systems and controls are in place, sufficient to mitigate any significant risks which may threaten the achievement of the organisation's strategic objectives. Assurance can be secured through a range of sources, but wherever possible, it should be systematic, consistent, independently verified and incorporated within a robust governance process. The Board achieves this primarily through the work of its assurance committees, through audit and other sorts of independent review, and by the systematic collection and analysis of performance data, to demonstrate the achievement of its strategic objectives. The Board Assurance Framework is a live document that is populated and amended as risks and assurances associated with the organisational strategic objectives are identified.		
In November 2018 the Board of Directors reaffirmed its risk appetite. This report provides the Trust's 2018/19 Risk Appetite Statement for information. The risk appetite agreed by the Board should clearly govern the activities across the Trust. It also defines the boundaries within which the Trust's strategic objectives should be pursued. From an operational risk perspective this is fundamental as operational risk identification and assessment is undertaken in relation to the Trust's strategic objectives. Such clarity should facilitate informed decision-making throughout the organisation on operational risk-related topics.		
Recommendation		
The Board of Directors is requested to note risk appetite statement in the context of its discussions.		
The Board of Directors is asked to review the Board Assurance Framework in the context of the papers
