Key Options, Issues and Risks

This paper provides a summary of the Income & Expenditure, Cash and Capital position as at the end of Month 2 (May 2020).

Appendix 1 provides a summary of the interim financial regime and highlights concerns raised with NHSE/I about the accuracy of their baseline funding calculation.

Analysis

Month 1 Financial Performance

BTHFT has broadly delivered the level of deficit before top up and COVID19 costs for Month 2 that NHSE/I projected. The Trust can therefore be seen to have delivered NHSE/I's financial plan for May 2020.

This cumulative breakeven position is reliant on central top up funding of £5.1m. This is in line with guidance from the regulators.

A total of £3.7m of COVID19 costs were recorded for Month 2 and an associated retrospective top up has been accrued into the I&E position to result in a breakeven position.

Until NHSE/I have concluded their audit and scrutiny of the Trust's claim for reimbursement of the £3.7m costs, there remains a degree of risk in the reported position. The risk is not considered significant however as appropriate governance and record keeping processes have been followed.

The Trust is querying aspects of NHSE/I's baseline projection methodology to ensure the issues identified are recognised by the regulators and potentially adjusted if increased activity levels in future months mean the mitigating non-pay underspends recorded in April and May begin to reduce.

The Trust's closing cash position on 30 April 2020 was £71.2m. This includes the top up payment on account and the advance block payment from CCGs for June 2020. The Trust's cash position is therefore strong and is expected to remain so for the duration of the financial year.

The non-COVID19 capital budget and plan for 2020/21 is £20.6m. Non COVID Capital expenditure to Month 2 was £0.6m.
