Advice for Patients Following Oral Biopsy Under Local Anaesthetic

1. Take care until the numbness has worn off. Be careful not to bite your tongue, lips or cheeks.
2. Do not rinse your mouth or use mouthwashes for 24 hours after your surgery. After 24 hours dissolve one teaspoon of salt in a glass of warm water. Hold this in your mouth for 1 minute at a time and rinse out. You should do this 3 to 4 times a day for 1 week.
3. You may experience difficulty eating hard foods, try a soft diet such as soup and mashed potatoes for a few days.
4. Avoid alcohol and exercise for at least 24 hours, unless advised differently by your doctor.
5. Avoid smoking for at least 48 hours after surgery.
6. You can expect some pain, swelling and bruising. Take your medications including painkillers as prescribed or advised by your doctor.
7. Bleeding will usually have stopped by the time you leave hospital. However, you may experience a slight blood loss. If this persists, take a clean gauze or handkerchief, roll it up, place over the bleeding site and apply pressure by biting on it for 10 to 20 minutes. You may need to repeat this.
8. Keep your mouth clean by brushing your teeth thoroughly. Clean the insides as well as outsides of the teeth
9. You may have some dissolvable stitches in your mouth, these can take up to 2 weeks to dissolve.

10. If you are worried about your post-operative condition, please contact:

- Oral & Maxillofacial Unit 01274 365200 Monday to Friday 9:00am to 5:00pm
- Oral & Maxillofacial SHO on call via switchboard 01274 542200 - Monday to Friday 5.00pm to 9.00am and all weekend.
- You can contact us using the Relay UK app. Textphone users will need to dial 18001 ahead of the number to be contacted.

Wristbands

When you are in hospital it is essential to wear a wristband at all times to ensure your safety during your stay.

The wristband will contain accurate details about you on it including all of the essential information that staff need to identify you correctly and give you the right care. All hospital patients including babies, children and older people should wear the wristband at all times.

If you do not have a wristband whilst in hospital, please ask a member of staff for one. If it comes off or is uncomfortable, ask a member of staff to replace it.

Smoking

Bradford Teaching Hospitals NHS Foundation Trust is a smoke-free organisation. You are not permitted to smoke or use e-cigarettes in any of the hospital buildings or grounds.

If you need this information in another format or language, please ask a member of staff to arrange this for you.
