Safety culture	6.9	2240	6.8	2733	Not significant
Staff engagement	7.2	2283	7.1	2740	↓
Team working	6.9	2236	6.5	2685	↓

## Our Staff Feel....

- The organisation takes positive action on Health and Wellbeing.
- Adequate adjustments have been made for them to carry out their work.
- Those who are involved in an error, near miss or incident are treated fairly.
- Care of patients/service users is the organisations top priority.
- Happy with the standard of care if that were for a relative or friend.
- Confident that concerns raised by patients and service users would be addressed.

# **I would recommend my organisation as a place to work**

- 68.2% said yes – increase from 54.8% in 2016 and above average, compared to other Acute Trusts.
- **If a friend or relative needed treatment I would be happy with the standard of care.**
- 74.5% said yes – increase from 64.2% in 2016 and slightly above average.

## However our Staff also feel....

- That they are more likely to have experienced discrimination at work
- That they do not get the support they need from their immediate manager
- That they are more likely to have experienced harassment and bullying than last year.
- They are less likely to look forward to going to work
- They do not receive the respect they deserve from colleagues.

# Next Steps

- Review results with CBUs and Corporate departments.
- Review results with Staff Networks.
- Discussion at People Academy 31.3.2021.
- Agree priorities for action:  
Trust Wide /CBU/Team
