Metric / Status

Trend

Challenges and Successes

Benchmarks

Hospital Standardised Mortality Ratio

The HSMR is a ratio of the observed number of in-hospital deaths at the end of a continuous inpatient spell to the expected number of in-hospital deaths (multiplied by 100) for 56 diagnosis groups in a specified patient group. We are in the process of exploring the Trust’s HSMR performance and factors that affect the overall figure. We are taking a joint working approach between the Learning from Deaths team and Business Intelligence.

No benchmark comparator available

Summary Hospital-level Mortality Indicator

The SHMI is the ratio between the actual number of patients who die during or within 28 days of hospitalisation at the Trust and the number that would be expected to die on the basis of average England figures, given the characteristics of the patients treated there. We are in the process of exploring the Trust’s SHMI performance and factors that affect the overall figure. We are taking a joint working approach between the Learning from Deaths team and Business Intelligence. It is important to note that SHMI is not an indication of avoidable deaths or of quality of care. Depth of coding has a significant impact on the index.

No benchmark comparator available

Readmissions

The fall in readmissions is likely to be as a consequence of COVID-19 and reduction in all other activity. It may be some months before we understand the ‘steady state’ for readmissions to consider re-launching the improvement programme.

Uncomplicated and Severe Sepsis Antibiotics

Recent audit identified that 90% patients triggering the Sepsis alert on EPR due to high NEWS score and who do not start timely antibiotics have not had sepsis – high NEWS score was due to other illness triggers. Audit to be repeated in November. Ongoing QI to support Sepsis programme is in progress.

No benchmark comparator available

Sepsis Percentage of Patients Screened

Percentages of those successfully screened remain lower than desired, but this is largely a function of the process rather than a deficiency in care. Focus on training for junior medical staff is on-going, as is work to improve the processes. Audit has demonstrated that patients are still receiving the correct care despite the apparent low screening numbers.

No benchmark comparator available

Pressure Ulcers Cat 3+ per 10,000 bed days

Pressure ulcer incidents are above the average but below the upper limit. Numbers are also expected to be higher due to patient acuity. RCAs are being completed for all cat 3 and above.

Delivery of
Income and
Expenditure
Plan

The Trust has reported a breakeven position at Month 7. This position is in line with the cumulative plan for Month 7. The Year To Date (YTD) position includes £1.3m of Elective Recovery Funding (ERF). Current run rates and projections suggest the Trust should be able to deliver a break even position for H2.

No benchmark comparator available

Delivery of
Cash Plan

Cash as at 31 October 2021 (£76.4m) was ahead of plan (£52.2m) by £24.2m. The Trust had more cash than due to higher than planned trade payables (£27.5m) balances which include a variety of general expenditure accruals and payroll accruals including the provision for untaken annual leave (£7m). Forecast outturn cash is £52.1m which is £5.6m above plan. The extra forecast cash is a result of higher than planned closing payables balances (£10.9m) including the provision for untaken annual leave (£7m). This forecast also includes additional capital expenditure of £5m following the in year increase to the programme.

No benchmark comparator available

To deliver our key performance targets and financial plan

Finance

Metric / Status	Trend	Challenges and Successes	Benchmarks
-----------------	-------	--------------------------	------------

Liquidity rating

Year to date (YTD) liquidity is 3.2 days which is 3.8 days lower than plan (7.0). Liquidity is lower than plan due to capital spend ahead of plan, slippage in receipt of PDC funding relating to Scan for Safety and lower than planned non-current deferred income. Liquidity is forecast to decline through the rest of the year to negative 6.6 days due to investment in the capital programme.

No benchmark comparator available

Delivery of Capital Plan

Year to date capital expenditure is £12.0m which is £1.9m above plan (£10.1m). The full year capital forecast is £30.0m which £5.2m above plan (£24.8m). The majority of this additional expenditure (£5m) has been agreed across the ICS with offsetting underspends made reported by other Trusts in the ICS group. The remaining additional spend (£0.2m) has been funded by securing additional external funding.

Performance

Metric / Status

Trend

Challenges and Successes

Benchmarks

Emergency
Care
Standard

Emergency Care Standard (ECS) performance was at 76.38% for October 2021, which is above peer average in the weekly NEY data sets. Attendances to the Emergency Department remained above historic averages, particularly for Paediatrics.. We continue to use see and treat and Same Day Emergency Care (SDEC) pathways to help avoid admissions and congestions within the department whilst longer term improvement plans are being progressed which will divert unnecessary attendances and further improve flow.

RTT 18 Week
Incomplete

Referral to Treatment (RTT) performance was 62.69% in October 2021. This reflects growth in over 18 week waits in line with the profile of when referral restrictions from primary care were lifted. This matches the national trend, although benchmarking data for this period is not yet finalised. Theatre and outpatient recovery programmes are in place and once treatment numbers improve the waiting list position will also improve.

RTT 52
Week Wait

The Trust had 1,290 incomplete 52 week waits at the end of October 2021. All long waits have been reviewed using clinical prioritisation guidelines and the daily review of management plans for patients waiting over 40 weeks continues. The 52 week waits are predominately for P3 and P4 surgical treatments, this position will improve in Q4 when additional theatre capacity is in place and these patients are listed for surgery. We continue to focus on the greater than 104 week waiters.

Performance

Bradford Teaching Hospitals
NHS Foundation Trust

Metric / Status

Trend

Challenges and Successes

Benchmarks

Elective
Waiting
List

The total elective waiting list continues to increase. Referral demand has remained consistent during 2021/22 and the elective recovery work of the Trust has not yet managed to reach a level to match this. Theatre improvements and extended use of the independent sector in half two will reduce the inpatient gap and outpatient models are under review with a focus on increasing decisions per appointment. Transfer of patients to the IS helped reduce growth in September and October and increased capacity in Q4 should be sufficient to support waiting list reductions towards the end of the year.

No benchmark comparator available

Diagnostic
Waits

October 2021 performance improved to 95.8% with the majority of modalities having recovered to pre-COVID-19 performance. Endoscopy remains challenged but is improving. BTHFT benchmarks in the upper quartile for this indicator.

To deliver our key performance targets and financial plan

Performance

Metric / Status

Trend

Challenges and Successes

Benchmarks

Cancer
2 Week
GP

September 2021 performance against the 2 Week-Wait Cancer standard deteriorated to 91.53% due to demand and capacity pressures on the Skin and GI pathways. October is forecast to recover to above target following additional clinics. Overall referral demand remains above historic averages which has resulted in some tumour groups booking at day 13. This is being closely monitored and daily escalation is in place but the risk of breaches is higher as a result. Longer term improvement plans are being established to help services deal with what is forecast to be a sustained increase in demand.

Cancer
62 Day
Urgent GP

Cancer 62 Day First Treatment performance for September 2021 was 74.07%. Diagnostic and surgical capacity is being prioritised in support of long cancer waits with improvements in time to diagnosis and decision to treat. The total waiting list over 62 days has recently improved to less than 30. Performance will remain below target whilst the remaining long waiters are being treated which is likely to continue during Q3. The Trust is forecasting attainment of this target by year end.

Cancer
62 Day
Screening

Performance for this indicator reflects the complexity of pathways, patient concordance, and delays in diagnosis across Breast and Lower gastrointestinal (GI) services.

To deliver our key performance targets and financial plan

Productivity

Metric / Status

Trend

Challenges and Successes

Benchmarks

Elective Day Case Rate

Day case rates continue to be above the national and regional average.

Bed Occupancy

Bed occupancy remains below pre-COVID-19 levels. Ward configuration has been adapted to provide red and green separation of patients meaning occupancy above 85% presents operational challenges on patient placement and flow. Occupancy is increasing in line with winter forecasts but the ability to open additional beds is not possible until Jan 21 due to a combination of estate work and nurse staffing levels. This has increased the occupancy rate and presented significant challenges in recent weeks.

Discharges before 1pm

Discharges before 1pm remains under review with a focus on earlier discharge maintained to facilitate patient flow. Performance is consistently within control limits when considered as a percentage of discharges.

Benchmarks

Referrals to FTSU

13 concerns were raised the Freedom To Speak Up team in Q2, 4 of these were raised anonymously. Of the 13 concerns raised; 4 were for bullying and harassment, 2 for Covid issues, 2 for safe staffing, 1 for values and behaviours, and 4 categorised as other. The National Guardian's office have specific categories to report on only.

Appraisal Rate Non-Medical

Appraisal performance is now being managed again through the Executive to CBU meetings which will be replicated when the Executive meet with corporate teams. Training and support programme in place for managers to ensure appraisals are happening in a meaningful way.

Appraisal Rate Medical

The appraisal year for medical appraisals runs 1st April 2021 to 31st March 2022, so there is more than a third of the year to go. Any appraisal completed during that time will be a successful appraisal, irrespective of the allocated appraisal months and deadlines missed. We have therefore completed 67% of appraisals within the first 60% of the year.

BAME Senior Leaders

We have seen a slight increase in our Ethnic Minority representation at Senior Management levels over the last six months which has risen from 14.5% to 15.22%. This is a positive step in our ambitions to have a senior workforce reflective of the local population (35% by 2025). As a Trust we are taking a positive action and targeted approach in the recruitment to senior leadership roles, and we continue to focus our efforts in supporting senior BAME colleagues in various leadership development programmes, including two who have joined the West Yorkshire and Harrogate BAME Fellowship and five participated in the very successful REACH mentorship programme, of which three have already now further advanced their careers. Our own Trust Reciprocal Mentoring Scheme for aspiring leaders will be launched in January 2022. With our continued focussed efforts we are on a unique journey in ensuring our workforce reflects the communities that we serve across all levels of the organisation. Next update May 2022 (for the period 01/10/21 to 31/03/22).

No benchmark comparator available

BAME Workforce

The proportion of BAME staff in the workforce has increased in the last six months to 34.65% and our trajectory continues to take us 4% ahead of our target of having a workforce reflective of the local population (35%) by 2025. Current work ongoing to raise the profile of Race Equality in the Trust, an Equality Impact Assessment and review of our Recruitment & Selection practices, and an exploration of best practice approaches to improving the culture in the organisation should help in ensuring we continue to be an outstanding employer in this respect. Next update May 2022 (for the period 01/10/21 to 31/03/22).

Equality & Diversity

Metric / Status	Trend	Challenges and Successes	Benchmarks
-----------------	-------	--------------------------	------------

Ethnic minority workforce by band group

With the overall proportion of ethnic minority staff in the workforce now around 35% and representative of the local community; the data shows that ethnic minority staff are over represented in the lower bands (at 39%) and representation decreases as banding increases, with most significant under representation at senior levels (15%). Recent dashboard analysis indicates that this figure is travelling in the right direction but trajectory still remains 4% below our target of 35% at senior levels by 2025. Our recent WRES action plan continues to focus our efforts in supporting senior ethnic minority colleagues to develop and progress within the organisation and this years' action plan also recognises the need to empower those in lower bands with the skills and opportunity to progress. Next update May 2022 (for the period 01/10/21 to 31/03/22).

Female workforce by band group

Our recent Gender Pay Gap submission showed that females made up 77% of our workforce (including medical & dental staff), but were proportionately under-represented at senior leadership levels (data as at March 2020). Initial indications from the March 2021 GPG data suggests this is improving. However, the current data (as shown) demonstrates; whilst females make up 82% of the non-medical workforce; they are significantly under-represented at senior levels (72%) and are slightly over-represented at middle management levels (86%). We are concentrating our efforts in this years' gender equality action plan in addressing this inequality by raising the profile of women in leadership and in analysing and starting to address potential blockages to progression. Next update May 2022 (for the period 01/10/21 to 31/03/22).

Health & Wellbeing

Bradford Teaching Hospitals NHS Foundation Trust

Metric / Status

Trend

Challenges and Successes

Benchmarks

Staff
Sickness
Absence

The rolling 12 month sickness absence rate at the end of October 2021 was 6.44% with increases seen in all areas of the Trust apart from Corporate which has remained stable and Estates & Facilities which has shown a slight reduction. This figure does not include staff who are self-isolating which is 0.65% in October, which is an increase from 0.57% in September 2021. COVID-19 related sickness has reduced from 1.12% in September to 1.10% in October 2021.

Frontline Staff
Flu Vaccination

As at the end of October 2021 there were 22% frontline vaccinated staff. Vaccinations have been undertaken via booked sessions in Occupational Health, pop-up sessions on the concourse and Trust inductions, and mobile clinics held in the wards and departments with 29 authorised peer vaccinations. We are now receiving a more focussed breakdown of vaccinated staff to determine areas of low uptake, and these are being targeted with mobile clinics visiting them specifically. Work is also being undertaken to increase the number of authorised peer vaccinators.

To collaborate effectively with local and regional partners

Partnership

Metric / Status	Trend	Challenges and Successes	Benchmarks
	<p>The stakeholder management work programme has not been operating during the COVID-19 response. We are looking at how we manage our “partnerships” as there is now a change of focus onto Act as One and West Yorkshire & Harrogate Healthcare Partnership (WYHHCP) and Bradford Health and Care Partnership Board (BHCPB) rather than necessarily “vertical” or “horizontal”. As such, we’ll need to rethink stakeholder management more generally. Nonetheless there are already some good examples of how in future we might invest more in managing the relationship with a few key partners, for example our Chief Nurse dialogue with the Care Quality Commission, or our Director of Strategy partnering with the University's Working Academy (responsible for much of our digital development and video film-making).</p>		No benchmark comparator available
	<p>The Trust signed a ‘Strategic Partnering Agreement’ with 13 partners across Bradford District and Craven at the end of March 2019. This SPA has recently been reviewed following its first year in existence, and this review has informed the development of the ICP in response to the proposed legislation and changes to the ICS. The ICP’s strategic direction has been reviewed to consider whether it is in line with the Health and Social Care Bill, and partners across the system are working on a System Strategy. A plan on a Page has been developed and has been welcomed by partners, with a full version of the strategy due to be published in the coming weeks. BTHFT retains its involvement in all 10 Bradford CPs. The governance structure around community partnerships has changed, and it is now part of the Act as One overall governance structure. BTHFT representation in all levels of Act as One governance has been mapped and is in the process of being reviewed to ensure there is representation where it is needed.</p>		No benchmark comparator available
	<p>The Trust is working with partner organisations across the Integrated Care System (ICS) to address the provisions of the Health and Social Care Bill. Work is underway to develop the structure for the ICS NHS Board (ICB) and how it will relate to the 5 Place Based Partnerships in West Yorkshire. Work in WYHCP is progressing well and is supported by a WYHCP Future Design and Transition Group and Leaders Reference Group. Plans aimed at restart and recovery, whilst managing residual waves of COVID-19, are also being implemented. Other projects currently underway include shared solutions for imaging services and for pathology. Projects previously paused due to Covid-19 such as the Procurement savings plan have restarted. Work to develop an OBC for the Pharmacy aseptics programme is also underway. Guidance on the design framework for ICSs was published by NHS England on 16 June 2021, and additional guidance to support its implementation was published in August and September 2021. Cathy Elliott, Chair of BDCT, has been appointed Chair Designate of the West Yorkshire Integrated Care Board and Rob Webster has been appointed the designate CEO.</p>		No benchmark comparator available
	<p>Much of the work previously undertaken through the collaboration has been absorbed into the Act as One programme, with the benefit of including a wider range of partner organisations, whilst the relationship between the trusts remains important in ensuring the cohesive delivery of acute services.</p>		No benchmark comparator available

Chief Medical Officer	Red Benchmark 3 standard deviations above mean, Amber 2 standard deviations above mean, Green within two standard deviations above mean	4.7
Stillbirths	Number of stillbirths per 1,000 births and number of stillbirths over 500g per 1,000 births	Chief Nurse	Red > 7, Amber 5 - 7, Green < 5	To be confirmed
Deaths Screened	Percentage of Deaths Screened	Chief Medical Officer	Red Two consecutive points outside control limits, Amber Outside control limits, Green Within control limits	To be confirmed
Learning from Deaths	Proportion of reviews undertaken finding good or excellent care provided	Chief Medical Officer	Red Two consecutive points outside control limits, Amber Outside control limits, Green Within control limits	To be confirmed
Readmissions	The number of readmissions within 30 days of discharge from hospital.	Chief Medical Officer	Red bottom 25% of Trusts, Amber middle 50% of Trusts, Green Lowest 25% of trusts	2.4

Indicator	Definition	Responsible Exec	RAG Criteria	DQ Kitemark Score
Patient Safety				
Never Events	The number of serious incidents that occur despite there being defined processes and procedures to prevent them.	Chief Medical Officer	Red > 0, Green = 0	4.0
Audit of WHO checklist	Audit of the World Health Organisation surgical checklist monitoring the number that were complete compared to the number of checklists.	Chief Medical Officer	Red < 90%, Amber >=90% & < 95%, Green >=95%	2.9
Clostridium Difficile (C. Diff)	The number of cases either attributable or pending review.	Chief Nurse	Red >= 3, Amber = 2, Green <=1	3.9
MRSA	Counts of patients with Methicillin Resistant Staphylococcus aureus (MRSA) bacteraemia.	Chief Nurse	Per month: Red >= 1, Green 0	3.9
CAUTI	Urinary tract infections in patients with a catheter. The benchmarking data comes from the Safety Thermometer prevalence information.	Chief Nurse	Red > 1.5%, Amber 1%-1.5%, Green < 1%	4.1
Sepsis Patients antibiotics	Percentage of patients who were found to have sepsis during the screening process and received IV antibiotics within 1 hour.	Chief Nurse	RAG criteria subjective – Executive informed.	To be confirmed
Sepsis Patients Screened	Percentage of patients screened for Sepsis	Chief Medical Officer	Red < 50%, Amber 50%-90%, Green >= 90%	5.0
Pressure Ulcers Cat3+	Number of reported hospital acquired category 3 and 4 pressure ulcers per 10,000 bed days. The benchmarking data comes from the Safety Thermometer prevalence information.	Chief Nurse	Red >= 6, Amber 5, Green < 5	4.3
Serious Incidents	Unexpected or avoidable death, serious harm, never events, service delivery prevention compared to all incidents reported.	Director of Strategy and Integration	Red > 5, Amber 3-5, Green <=2	4.0
Falls with Harm	Patient falls resulting from harm per 10,000 bed days. The benchmarking data comes from the Safety Thermometer prevalence information.	Chief Nurse	Red upper quartile, Amber mid quartiles, Green lower quartile	4.3
Falls with Severe Harm	Falls with Harm classed as Severe	Chief Nurse	Red = reported for consecutive months, Amber = 1, Green = 0	4.3
Missed Doses	Proportion of patients with an omission of a critical medicine	Chief Nurse	Red - above national average Amber – 0 - <1% below the average Green - > 1%+ the national average	3.9

Indicator	Definition	Responsible Exec	RAG Criteria	DQ Kitemark Score
Patient Experience				
Friends and Family Test	The percentage of patients who strongly recommend the Trust.	Chief Nurse	RAG criteria subjective – Executive informed.	2.6
Complaints	Number of complaints.	Chief Nurse	Red >= 50, Amber 40-49, Green < 40	4.7

Indicator	Definition	Responsible Exec	RAG Criteria	DQ Kitemark Score
To deliver our key performance targets and financial plan				
Finance				
Delivery of Income & Expenditure Plan	Delivery of finances against plan.	Director of Finance	Red – off plan (adverse) Green on plan or better	3.3
Use of Resources – Financial	Use of resources is a calculation on the status of a number of financial measures – Capital Servicing Capacity, Liquidity, I & E Margin, and Agency Spend.	Director of Finance	Red - Rating of 4 Amber – Rating of 2 or 3 Green – Rating of 1	3.3
Delivery of Cash Plan	Delivery of cash against plan.	Director of Finance	Red Cash below £5m Amber Cash between £5m & £10m Green Cash over £10m	3.3
Liquidity Rating	A measure of how many days an organisation can continue to fund its operations based on the level of net current assets and available borrowing.	Director of Finance	Red - minus 14 days liquidity Amber - 0 days to minus 14 days liquidity Green – greater than 0 days liquidity	4.1

Indicator	Definition	Responsible Exec	RAG Criteria	DQ Kitemark Score
Performance				
Emergency Care Standard	Percentage of patients seen in A&E within 4 hours.	Chief Operating Officer	Red < 90%, Green >= 90%	2.4
RTT 18 weeks Incomplete	Percentage of patients waiting within 18 weeks on an incomplete pathway.	Chief Operating Officer	Red < 92%, Green >= 92%	3.9
RTT 52 weeks waits	Number of patients waiting more than 52 weeks.	Chief Operating Officer	Red > 0, Green = 0	4.0
Elective wait list	Wait list of patients on an elective pathway.	Chief Operating Officer	Red Greater than last month Green Less than last month	3.7
Diagnostic Waits	Percentage of patients who have waited less than 6 weeks for a diagnostic test.	Chief Operating Officer	Red < 99%, Green >= 99%	3.4
Cancer 2 week wait GP	Percentage of patients who have waited a maximum of 2 weeks to see a specialist for all patients referred with suspected cancer symptoms	Chief Operating Officer	Red < 93%, Green >= 93%	3.9
Cancer Urgent 62 day GP	Proportion of patients receiving treatment for cancer within 62 days of an urgent GP referral for suspected cancer.	Chief Operating Officer	Red < 85%, Green >= 85%	3.9
Cancer Urgent 62 day Screening	Proportion of patients receiving treatment for cancer within 62 days of an NHS Cancer Screening service.	Chief Operating Officer	Red < 96%, Green >= 96%	3.9
Full Blood Count acute wards 2 hours	The time taken for the laboratory to process Full Blood Counts samples from all Acute Wards and validated results are available on the Laboratory Information Management System (LIMS). The time measured is from the sample being booked on to the LIMS and results being validated on the LIMS and available to requestors	Chief Operating Officer	Red <85%, Amber >=85% & < 90%, Green >=90%	3.9

Indicator	Definition	Responsible Exec	RAG Criteria	DQ Kitemark Score
Productivity				
Length of Stay	The average length of stay for patients, in days.	Chief Operating Officer	Red Top 25% of Trusts, Amber 50-75% of Trusts, Green Better than mean	2.0
Stranded Patients LoS >=7	The average number of patients (excluding Maternity) who have been in hospital 7 days or more.	Chief Operating Officer	Red >208, Amber 189-207, Green <= 189	4.1
Super Stranded Patients LoS >=21	The average number of patients (excluding Maternity) who have been in hospital 21 days or more.	Chief Operating Officer	Red >71, Amber 62-71, Green <= 62	4.1
Elective Day Case Rate	The number of patients admitted for planned procedure and leave same day as a % of all procedures.	Chief Operating Officer	Red < 83%, Amber <87% & >=83%, Green >= 87%	1.0
Bed Occupancy	Average percentage of available beds which were occupied overnight.	Chief Operating Officer	Red >=95%, Amber 85-95%, Green <85%	2.3
Discharges before 1pm	Number of discharges from hospital which happened before 1 pm.	Chief Operating Officer	Red = Outside control limits, Green = Inside control limits	2.3
New to Follow-up Ratio	The ratio between New and Follow Up Outpatient appointments. Benchmarking data is from HED, which has a subtly different calculation, which can result in very small differences in numbers.	Chief Operating Officer	Red < 50 th Percentile England, Amber 50 – 25 th Percentile, Green Upper Quartile England	2.4
DNA Follow-up	This is the % of Follow-up Outpatient appointments where the patient does not attend.	Chief Operating Officer	Red < 50 th Percentile England, Amber 50 – 25 th Percentile, Green Upper Quartile England	2.6
DNA New	This is the % of New Outpatient appointments where the patient does not attend.	Chief Operating Officer	Red < 50 th Percentile England, Amber 50 – 25 th Percentile, Green Upper Quartile England	2.6
Covid-19				
COVID-19	For Covid-19 patients – average number in hospital, number who died, number discharged to usual place of residence	Chief Operating Officer	RAG criteria subjective – Executive informed.	To be confirmed

Indicator	Definition	Responsible Exec	RAG Criteria	DQ Kitemark Score
To be in the top 20% of employers				
Engagement				
Staff FFT Treatment	Percentage of staff recommending the Trust as a place to receive care or treatment as part of the staff Friends and Family Test.	Director of Human Resources	Red <Yorkshire &Humber, Green >Yorkshire &Humber	4.4
Staff FFT Work	Percentage of staff recommending the Trust as a place to work as part of the staff Friends and Family Test.	Director of Human Resources	Red <Yorkshire &Humber, Green >Yorkshire &Humber	4.4
Appraisal Rate Non-medical	Percentage of eligible staff employed at the Trust who have had an appraisal in the last 12 months.	Director of Human Resources	Red <75%, Amber >=75% and <95%, Green >=95%	5.0
Contacts with Advocacy service	Percentage of Staff Advocate Service Contacts resulting in investigations.	Director of Human Resources	New metric in a phase of trending therefore RAG criteria subjective. – Executive informed.	3.6
Harassment & Bullying outcomes	Percentage of Harassment and Bullying related Contacts resulting in disciplinary action.	Director of Human Resources	New metric in a phase of trending therefore RAG criteria subjective. – Executive informed.	4.6
Training & Development				
New Starter Training	Percentage of new staff who are compliant with mandatory training requirements.	Chief Medical Officer	Red < 90%, Amber >=90% & <100%, Green = 100%	4.4
Refresher Training	Percentage of staff who are compliant with mandatory training requirements.	Chief Medical Officer	Red < 75%, Amber >=75% & <85%, Green >= 85%	4.4

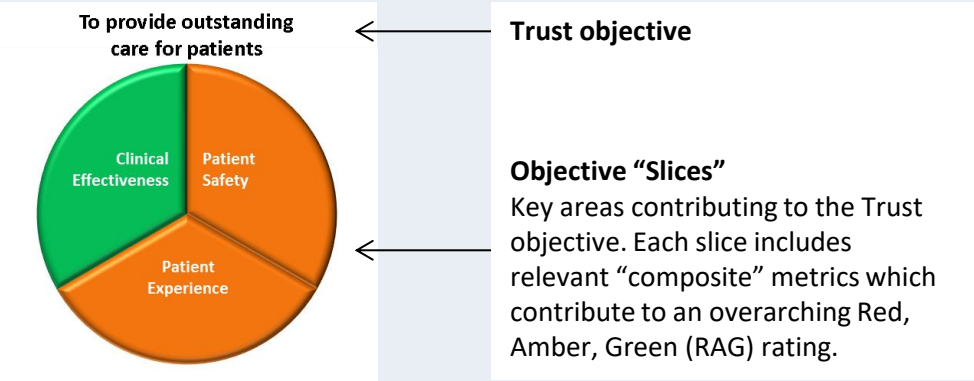

Indicator	Definition	Responsible Exec	RAG Criteria	DQ Kitemark Score
Staffing				
Care Staff Shifts filled	Percentage of time care staff staffing hours are filled compared with planned.	Chief Nurse	Red < 80%, Amber 80% – 95%, Green > 95%	3.7
Care Staff Care Hours	Total of the actual number care staff hours for the month divided by the total number of patients who were an inpatient at midnight for each day of that month.	Chief Nurse	Red = Lower two quartiles, Green = Upper two quartiles	3.7
Nursing Care Hours	Total of the actual number of Registered Nurse / Midwife hours for the month divided by the total number of patients who were an inpatient at midnight for each day of that month.	Chief Nurse	Red = Lower two quartiles, Green = Upper two quartiles	3.7
Use of Agency Staff	Agency Full Time Equivalents (FTE's) as a percentage of all FTE's.	Director of Human Resources	RAG criteria subjective.	4.0
Staff Turnover	Number of employees who have left the organisation in the past 12 months as a percentage of the average number of employees over the same period.	Director of Human Resources	Red > 14%, Amber 12% – 14%, Green < 12%	4.0
Maternity patients receiving 1:1 care	Percentage of maternity patients receiving one-to-one care	Chief Nurse	RAG Criteria being reviewed.	To be confirmed
Equality & Diversity				
BAME Senior Leaders	Percentage of staff employed in Band 8+ Senior Manger roles at the Trust who are of Black, Asian or Minority Ethnic (BAME) background.	Director of Human Resources	Red >=2% below Trajectory Target, Amber >2% of Target, Green >= Target	4.6
BAME Workforce	Percentage of staff employed at the Trust who are of Black, Asian or Minority Ethnic (BAME) background.	Director of Human Resources	Red >=2% below Trajectory Target, Amber >2% of Target, Green >= Target	5.0
Health & Wellbeing				
Staff Sickness Absence	Percentage of staff time lost due to sickness in a given period (the reported month, year to date is the previous 12 months rolling average for which the Trust target is 4.5%.	Director of Human Resources	Red >1% point above Target, Amber within 1% point above Target, Green <= Target	4.0
Frontline Staff Flu Vaccination	Flu vaccine uptake percentage amongst frontline staff	Director of Human Resources	RAG Criteria being reviewed.	4.6

Indicator	Definition	Responsible Exec	RAG Criteria	DQ Kitemark Score
To collaborate effectively with local and regional partners				
Partnership				
Stakeholder Engagement	The Hospital’s systematic approach to stakeholder management identifies key external partners, and for each an executive sponsor and an account manager has been identified, with responsibility for maintaining/improving the health of the relationship.	Director of Strategy & Integration	RAG rating subjectively agreed by the committee	Qualitative Metric
Vertical Integration	Working with local partners and contribute to the formal establishment of a responsive, integrated care system.	Director of Strategy & Integration	RAG rating subjectively agreed by the committee	Qualitative Metric
Horizontal Integration	Working with other providers to ensure resilient services, reduce outcome variation, address workforce shortages, and achieve efficiencies. Contribute to the establishment of an effective Integrated Care System in West Yorkshire and Harrogate.	Director of Strategy & Integration	RAG rating subjectively agreed by the committee	Qualitative Metric
Airedale Collaboration	Working with Airedale NHS Foundation Trust to collaborate effectively to improve the services offered to patients, ensuring they are more resilient. The programme will address workforce shortages together.	Director of Strategy & Integration	RAG rating subjectively agreed by the committee	Qualitative Metric

Indicator	Definition	Responsible Exec	RAG Criteria	DQ Kitemark Score
To be a continually learning organisation				
Learning Hub				
Learning Hub Progress	Progress on embedding the Learning Hub in the Trust against the plan.	Director of Strategy and Integration	RAG criteria subjective – Executive informed.	Qualitative Metric
Research				
Research patients recruited	Number of patients recruited to studies against the planned recruitment.	Chief Medical Officer	Red <60%, Amber >=60% & <80%, Green >=80%	4.0
Governance				
Duty of Candour	Patient informed duty of candour.	Director of Strategy and Integration	Red > 0, Green = 0	4.0
Information Governance Breaches	The number of reported breaches of information governance standards.	Chief Digital and Information Officer	Red > 6, Amber <=6 & > 2, Green <=2	3.7
Out of Date Policies	Percentage of policies that are currently out of date.	Director of Strategy and Integration	Red < 95%, Amber >=95% & <100%, Green = 100%	3.3

Dashboard Key

Summary Charts

RAG Rating Calculations

Objective Slice RAG
Weighted score of composite metric RAGs within a slice divided by the number of composite indicators within a slice.

Red =< 1.5
Amber > 1.5
Green => 2.5

Metric RAG
Each metric has separate RAG criteria updated on a monthly basis by Responsible Owners as defined in the Metric glossary. This demonstrates the current status of the metric.

DQ Kite Mark
RAG status of assurance of the data quality of the information being presented – average score RAG rated across 7 domains; timeliness, audit, reliability, relevance, granularity, validation and completeness.

DQ Score	Summary
1	Insufficient systems, processes or documentation available to provide assurance on the asset (i.e. dataset).
2	Limited systems, process and documentation are available and therefore assurance is limited.
3	Systems, processes and documentation are available and the asset has been locally verified to provide assurance.
4	Full systems, processes and documentation are available and the asset has been locally verified to provide assurance.
5	Full systems, processes and documentation are available and the asset has been independently verified with full assurance provided.

Statistical Process Control (SPC) Chart
The information is generally presented using “control limits” to determine whether any one month is statistically high or low. The average is calculated over the first 12 months, and after this time if there is a period of 8 months in a row which are all above (or below) the average, a new average and control limits are calculated from this point.

Benchmarking
The majority of benchmarking charts show information for the most recently available period. The range of other Acute Trusts values are split into 4 quartiles, showing the range of the bottom 25% of Trust values, 25-50% of Trust values etc. The value for Bradford Teaching Hospitals is shown alongside a single value looking at the average of Acute trusts in Yorkshire and Humber.
