Bradford and District

Your **voice** on local **health** and **care**

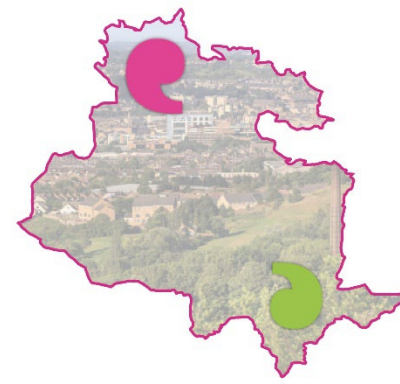

We talk to anyone who uses **GPs** and **hospitals**, **dentists**, **pharmacies**, **care homes** or other **support services** in the Bradford district about their experiences.

We are **independent** and have the power to make sure NHS leaders and other decision-makers listen to local **feedback** and **improve standards of care**.

We also help our communities to find reliable and trustworthy **information** and **advice**.

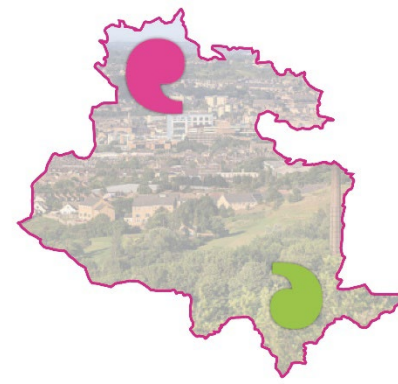

Last year, across England, the Healthwatch network helped nearly **1 million people** to have their say and get the support they needed. There are **152** local Healthwatch across England.

We are commissioned by **City of Bradford Metropolitan District Council** to carry out these statutory duties under the Health and Social Care Act 2012.

People share their views with us and access advice and information ...

On our website healthwatchbradford.co.uk ...

... by phone

and email ...

... or **in person.**

We also have a legal power to **visit** health and social care services and see them in action. This allows us to identify what is working well with services and where they could be improved.

This is called **Enter and View**.

We analyse all the feedback we receive about local services and ensure our communities are **heard** by those who commission and provide health and care services.

We produce **reports**, make **recommendations** and work directly with those who have the **power** to make changes.
