

Appendix 3 - BTHFT Foundation Trust Membership Profile: March 2023

1. Who can become a member of our Foundation Trust?

Eligibility Details are laid out in our Constitution which is available [here](#).

In general people and those accessing our services as a patient or carer are invited to become a member of the Trust via the [online membership form](#)

Public membership: Our public membership is divided into six sub-constituencies which cover Keighley, Shipley, Bradford East, Bradford South, Bradford West and 'Rest of England and Wales'. With the exception of our staff, if a person lives in one of the above areas (as determined by their postcode) then you can join as a public member of the relevant constituency.

Patient (Out of Bradford) membership: Patients, or the carers of patients, who live outside of our Bradford district can join our Patient membership constituency.

Staff membership: Our staff membership constituency is divided into four groups. These cover Nursing and Midwifery, Medical and Dental, Allied Health Professionals and Scientists (AHP&S), and 'All our other Staff Groups' (comprising administration and clerical staff, estates and facilities staff and some members of staff who provide additional clinical services). An eligible staff member is automatically a member of the foundation trust.

7. Where is our public and patient data kept?

Our database is provided by CIVICA ENGAGE (formerly Membership Engagement Services (MES) – you can find out more about them via the link [here](#) below.

8. What analysis can be undertaken of membership data?

The information can be filtered by all the categories included within the joining form and as such can be stratified by age, gender, ethnicity, etc.

There are general files that can be produced providing an overall view of our membership.

These cover:

- General Membership Reporting
- Multi-constituency analysis
- Local population distribution
- Public and patient member type breakdown
- Membership lifestyle summary

Can they be stratified by age, gender, and ethnicity

Yes they can be stratified by these categories.

9. How current is our public and patient data?

Our public and patient data is current. It is regularly 'cleansed' (at least monthly) against other data systems that include national databases covering 'house moves', 'gone aways', and 'registered deaths' (with regard to deaths we also cleanse our data against our own 'deaths in hospital' on a monthly basis).
